RECEIVED

DEC 15 1987

GROUP 120

AMENDMENT UNDER 37 C.F.R. 1.116

Dear Sir:

In response to the Office Action mailed September 10, 1987,
finally rejecting claims 10-13, please amend the above-identified
U.S. patent application as follows:

In the Claims:

Please amend the claims as follows:

10. (Amended) A method of increasing the antithrombotic
activity of mammalian blood relative to the anticoagulant
activity comprising administering to a mammal a therapeutical
composition, [more particularly] for the prevention of (thrombotic
ailments), characterized in that it contains as the active
